

COMMUNITY PRIDE

Because we appreciate our natural surroundings, we want to preserve them for future generations. Ludington residents and business owners proudly work together to keep our town and beaches clean and eco-friendly. They provide downtown cigarette disposal containers and AFWEW plans regular beach sweeps. Local organizations, such as the Jaycees and Rotary Club, have projects and fundraisers that help Ludington and its citizens. Here in Ludington, when money is needed for a good cause or someone in need, neighbors always step up. We are a very giving and generous community, making Ludington beautiful inside and out.

Accessibility

We want everyone to enjoy Ludington's beaches, parks, and playgrounds, so you'll find our town very accessible.

There are three walkways at Stearns Park beach—at the north and south ends and one in the middle. They begin at the sidewalk and extend down to the shoreline. The Ludington State Park beach also has a walkway, and the new playground by the Hamlin beach was built with accessibility in mind. Many of our local parks, such as Sutton's Landing, Waterfront Park, and Rotary Park are easy to navigate by foot or wheelchair. 🗺️
